# 1 Patch Documentation

## 1.1 About this document

This paper documents the changes to the imc Learning Suite in the specified version. These changes typically resolve known program errors. The resolved errors are listed individually.

For each resolution, an area is listed where the corresponding issue was located and solved. Furthermore, a risk assessment was made based on the source code changes which were needed to be made to resolve the issue. This risk assessment does not assess a risk for a certain use case or scenario because this varies for each customer individually.

Each change was checked according to the certified processes (ISO 9001:2008) of our development and QA department – at least two times before delivery. It is nevertheless recommended to perform additional testing of customer specific scenarios or use cases, if a change was made in an area that could have an impact on these scenarios.

## 1.2 Modifications

Area	Risk of changes			
	High	Medium	Low	No noticable risk
Accessibility				
Architecture				1
Attendance tracking				
Avetmiss				
Bookshelf				
Catalogues			1	
Certifications				
Clients / Multi tenant				
Compliance Workflows				
Courses				
Dashboards				
Data privacy				
Documentation				
e-Payment gateway				
e-Portfolio				
Easy Course Creation				
Emails & Notifications & iCal			1	
Enrolment processes				
Feedbacks				
Gamification				
Integration and interfaces (3rd party)				
Language handling				
Learner area				
Learning App Windows				
Learning paths				
Media			1	1
Miscellaneous				
Mobile Apps				
Multi language support				
Navigation				
On-the-job Training				

Performance support (PGS)				
Recommendation engine
