1 Introduction

The purpose of this guide is to provide step-by-step instructions for our customers on how to register in the imc Learning Connect portal as part of their Enablement Journey (within the scope of an LMS implementation project).

To this aim, all imc customers worldwide have access to the **imc Learning Connect** customer portal, available at <https://learningconnect.im-c.com>.

The enablement training aims to give customers an **initial insight into the imc Learning Suite and practical applications**. By covering the LMS functional overview, core LMS concepts and workshop preparation, clients can take a **more active role in implementing and configuring their Learning Suite** for their needs, together with the Business Consultant / Project Manager.

The screenshot shows a learning module titled "Customer enablement for imc Learning Suite implementations". The module is marked as "Online" and "In progress" with a progress bar at 0%. It has two tabs: "Description" and "Syllabus", with "Syllabus" being the active tab. The syllabus content includes:

- Functional Overview (4 reviews)
- Core Concepts (4 reviews)
- Preparing for your workshops (5 reviews)
- We'd love to hear from you! (1 review)

On the right, there is a "0 Ratings" section and a "English (GB)" dropdown. A "Expand all" button is located in the top right corner of the syllabus area. There is also a small image of three people in the top right corner of the main content area.

2 Process description new registrations

Step 1 (Creation of user account & activation)

New customers can use [this link](#) to register.

Sign up

Please provide the following information to sign up. Fields marked with an asterisk (*) are mandatory.

First name *

Last name *

Your role *

Company Name *

Country *

Time zone

Preferred content language

Communication language

Login name / E-mail *

Password *

Repeat password *

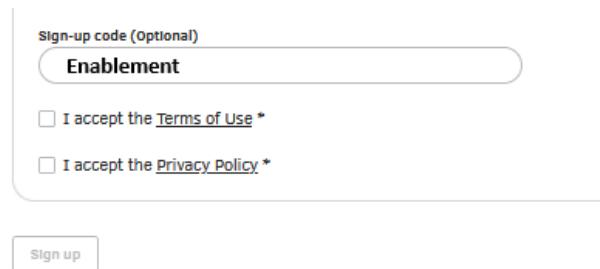

Sign-up code (Optional)

I accept the [Terms of Use](#) *

I accept the [Privacy Policy](#) *

[Sign up](#)

When completing the application, be sure to enter "**Enablement**" in the "Sign-up Code" field to bypass manual approval.

Once the registration form has been completed and sent, you will need to confirm your e-mail address via a system-generated confirmation e-mail.

Go to your mail inbox and click on the link to complete validation / activation process.

Learning Connect: Activating your account

ic imc Learning Connect <customersuccess@im-c.com>

To: You

Mon 12/12/2022 9:59 PM

Dear Enab Led,

Your imc Learning Connect login information requires email confirmation before account activation is possible. Please click on the following link, or copy it into the address field of your browser, to complete the account registration:

<https://learningconnect.im-c.com/ilp/pages/accountactivation.jsf?activationToken=bb0f97d714d5b14ef2999ea3e6b5f5fc>

After successful activation, you will be able to log in to the imc Learning Connect using your login information; for security purposes, your login information was sent in a separate e-mail. If certain company details you provided are known to imc you will be automatically approved, otherwise if not known you will receive limited access until your account can be manually validated.

The activation link can be used for 10 day(s), 0 hour(s) once issued. Should the account not be activated within this time, it will be automatically deleted.

With kind regards,
imc Customer Success Team

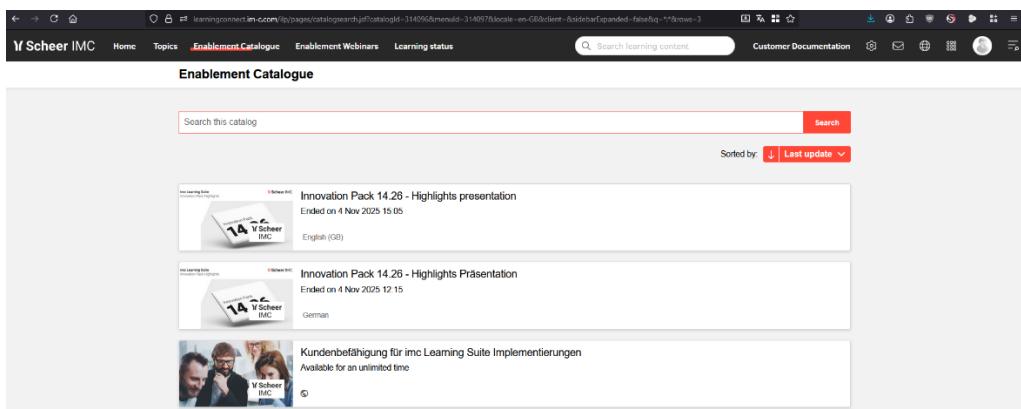

A confirmation will appear, allowing you to log in with your access data. Your access has now been activated.

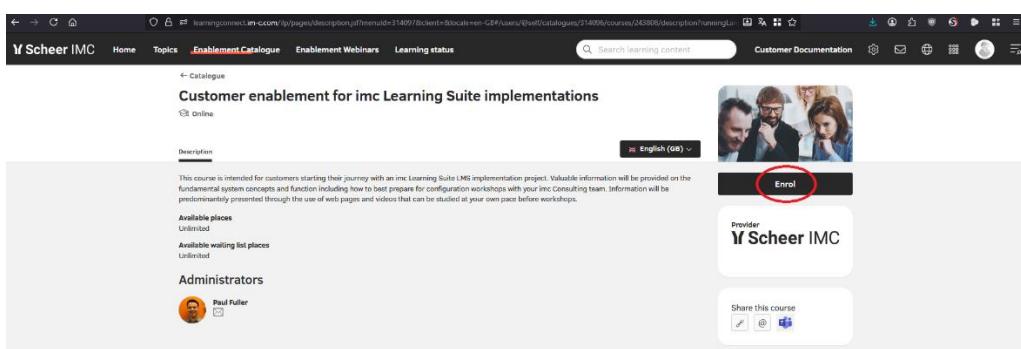

Step 2 (Course Booking & Course Processing)

From this point on, you have two ways to access the course:

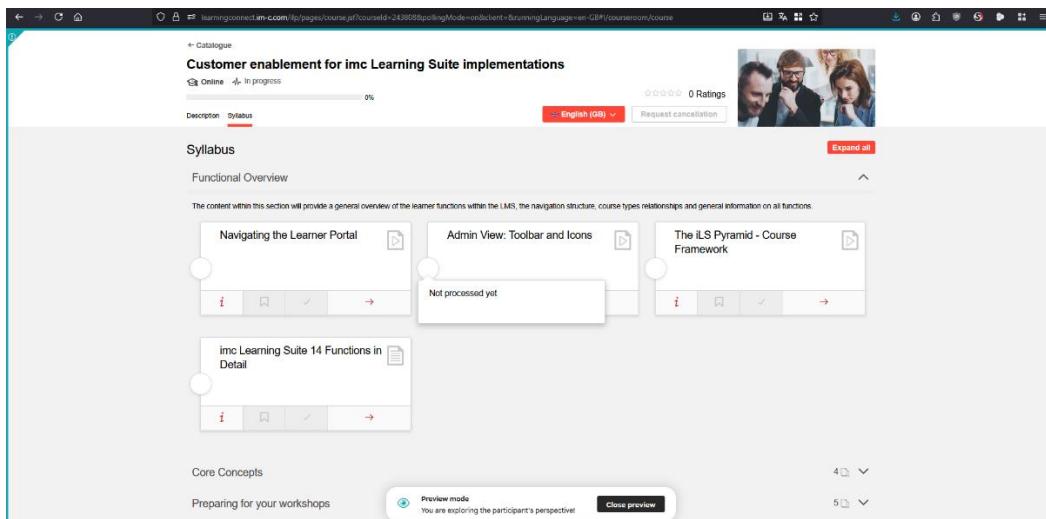

- After logging in with your user details, simply insert the following deep link into your browser: <https://learningconnect.imc.com/ilp/pages/description.jsf?menuld=1108&client=#/users/@self/catalogues/232195/courses/243808/description>.
- Or, on the home page, click on “**Enablement Catalogue**”. If the Enablement Course is not immediately visible in the course selection, please enter “Enablement” in the catalogue search box.

In both cases you are taken to the course description page. Simply select the “**Enrol**” button in the course description. You can access the course content and start your enablement journey after booking the course.

As soon as you are in the **course room / syllabus** of the course, you have access to the individual learning contents (videos, files). The contents are available in German and English, and you can switch between languages:

The screenshot shows a web browser displaying a course page from the Scheer IMC LMS. The page title is "Customer enablement for imc Learning Suite implementations". It shows the course is "Online" and "In progress" with a progress bar at 0%. There are "0 Ratings" and a "Request cancellation" button. A thumbnail image of three people is shown. The main content area is titled "Syllabus" and "Functional Overview". It includes a "Functional Overview" section with a general description and three cards: "Navigating the Learner Portal", "Admin View: Toolbar and Icons", and "The ILS Pyramid - Course Framework". Below this is a section titled "imc Learning Suite 14 Functions in Detail". At the bottom, there are "Core Concepts" and "Preparing for your workshops" sections, and a "Preview mode" message: "You are exploring the participant's perspective".

In case you have any problems accessing the course, please contact your Business Consultant or customersuccess@im-c.com.
