1 Design Options

This section describes the general settings that are used for all pages. All these settings will help to create the framework of the design and will be the starting point for future elements design. You must view these settings as a base for your design.

1.1 Global Variables

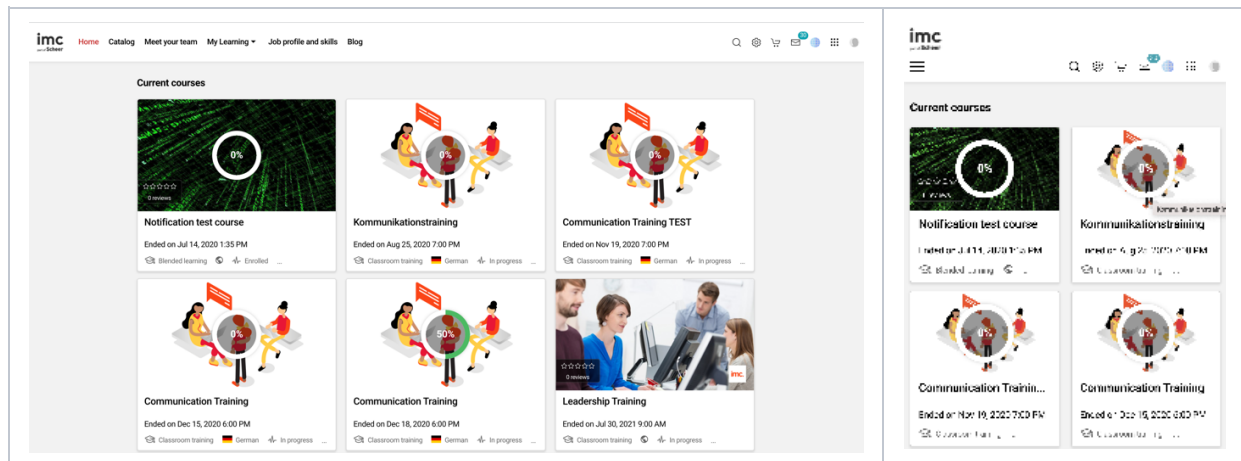

We apply a common set of options as core customization to ensure uniform integration of all our products and extensions.

Section	Variable
Settings	<ul style="list-style-type: none"> – theme-setting-globalwidth (default: 1280px) <i>Max width for user pages</i> – theme-setting-globalradius <i>Global border radius for buttons and cards</i>
Colours - Main	<ul style="list-style-type: none"> – theme-colour-primary <i>Primary colour (used on buttons and links)</i> – theme-colour-primary-over <i>Colour over the primary colour. If theme-colour-primary is the background then this is the foreground</i> – theme-colour-secondary <i>Secondary colour (used on buttons and links)</i> – theme-colour-secondary-over <i>Colour over the secondary colour. If theme-colour-secondary is the background then this is the foreground</i>
Colours - Body	<ul style="list-style-type: none"> – theme-colour-body-primary <i>The main background for the user pages</i> – theme-colour-body-secondary <i>The secondary background is used to emphasize some sections over the main sections</i> – theme-colour-body-tertiary <i>Tertiary background colour. If it's set the same colour for theme-colour-body-primary and theme-colour-body-secondary then use a different light colour to have some contrast on the page (ex: utfp rearrange question)</i>
Colours - Texts	<ul style="list-style-type: none"> – theme-colour-text-primary <i>The primary text colour used as body text colour</i> – theme-colour-text-secondary <i>The secondary text colour used as headline text colour</i> – theme-colour-text-meta <i>The meta text colour used for the metadata row (on cards, headers)</i>
Colours - States	<ul style="list-style-type: none"> – theme-colour-success – theme-colour-success-over – theme-colour-success-light <p><i>Used to provide visual feedback for the successful states (done, correct, completed, agree, passed, checked)</i></p>

Section	Variable
	<ul style="list-style-type: none"> – theme-colour-alert theme-colour-alert-over theme-colour-alert-light <i>Used to provide visual feedback for the alert states (error, failed, wrong, destructible action)</i> – theme-colour-pending theme-colour-pending-over theme-colour-pending-light <i>Used to provide visual feedback for the pending states (pending, in progress, waiting, running)</i> – theme-colour-neutral theme-colour-neutral-over <i>Used for the neutral states (not started, ended, not processed, other)</i> – theme-colour-info theme-colour-info-over theme-colour-info-light <i>Used for information (notification,)</i> – theme-colour-disabled theme-colour-disabled-over theme-colour-disabled-light <i>Used for disabled content</i>
Fonts	<ul style="list-style-type: none"> – theme-font-family-primary <i>The primary font family used for the body texts</i> – theme-font-family-secondary <i>The secondary font family used for headlines (page titles)</i>
Borders	<ul style="list-style-type: none"> – theme-border-primary <i>Main border used for cards and sections</i> – theme-border-secondary
Shadows	<ul style="list-style-type: none"> – theme-shadow-primary <i>Shadow used for cards</i> – theme-shadow-secondary <i>Shadow used for sections in a page</i>
Table	<ul style="list-style-type: none"> – theme-table-header-body – theme-table-header-text – theme-table-row-primary-body – theme-table-row-primary-text – theme-table-row-secondary-body – theme-table-row-secondary-text – theme-table-row-hover-body – theme-table-row-hover-text – theme-table-row-active-body – theme-table-row-active-text

1.2 Logo

The logo can be displayed only on the top-left side of the header. For complex logos, must be provided two variants: one for large screens and another for tiny screens, to have a responsive view of the logo (smartphone view).

1.3 Font Family

The global font family can be changed as needed. This can be either an external web font (ex: google fonts) or a licensed font.

For the licensed font the client must provide the web font files.

- .eot (optional)
- woff (optional)
- woff2 (**mandatory**)

*If it's not requested a custom font, our standard font (Roboto) is used.

1.4 Main Navigation

1.4.1 Global navigation style options

- font-family
- navigation background
- navigation shadow

1.4.2 Navigation on large screens

The following styles can be adapted at the main Navigation on large screens:

- Background colour
- Bottom border size and colour
- **Navigation entry**

- background colour (normal, hover & active)
 - text colour (normal, hover & active)
 - Vertical position
 - Horizontal position (left or right) when the navigation is on the second row (under the logo)
- **Drop-down** background colour
 - **Drop-down entry**
 - background colour (normal, hover & active)
 - text colour (normal, hover & active)

1.4.3 Navigation on small screens

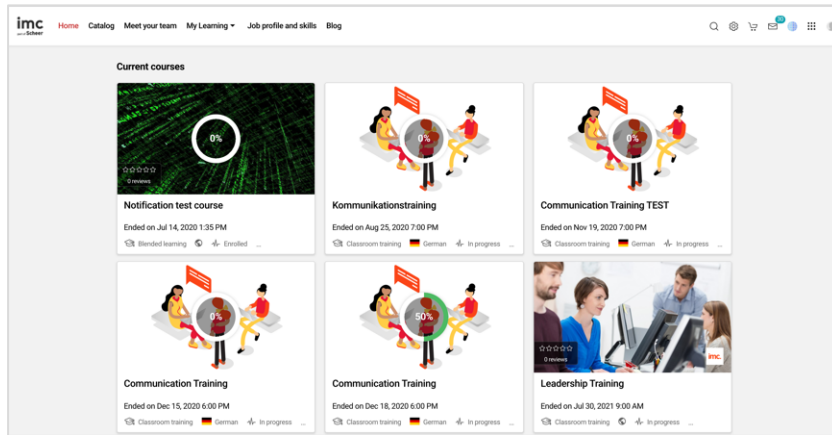

The following styles can be adapted at the main Navigation on small screens:

- **Icon** for open/close the navigation
 - background (close and open)
 - colour (close and open)
- **Navigation entry**
 - background colour (normal, hover & active)
 - text colour (normal, hover & active)

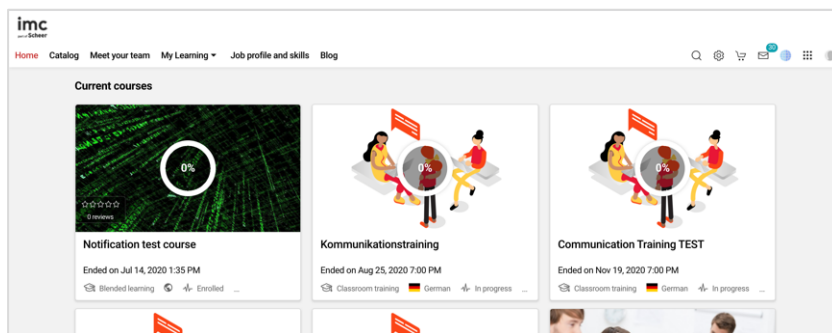

1.4.4 Main navigation variations

The following images show variants of the navigation menu:

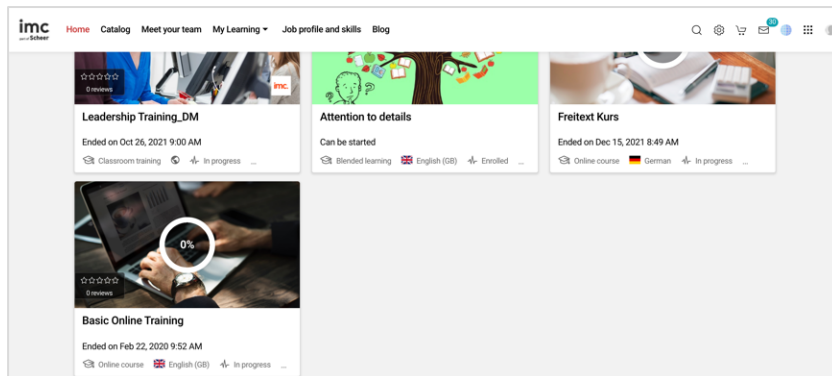

Standard

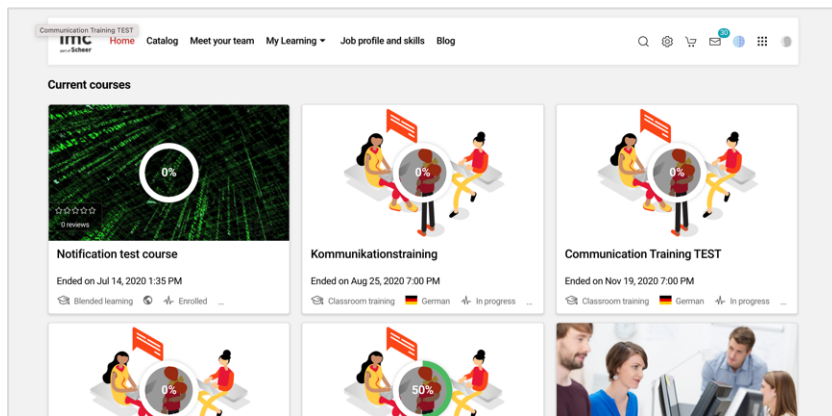

Stacked

Sticky

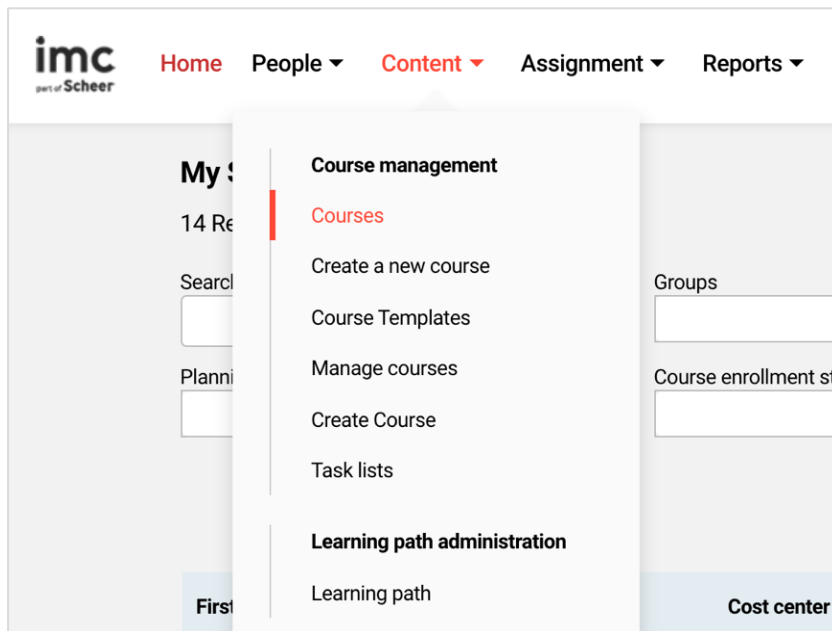

Floating

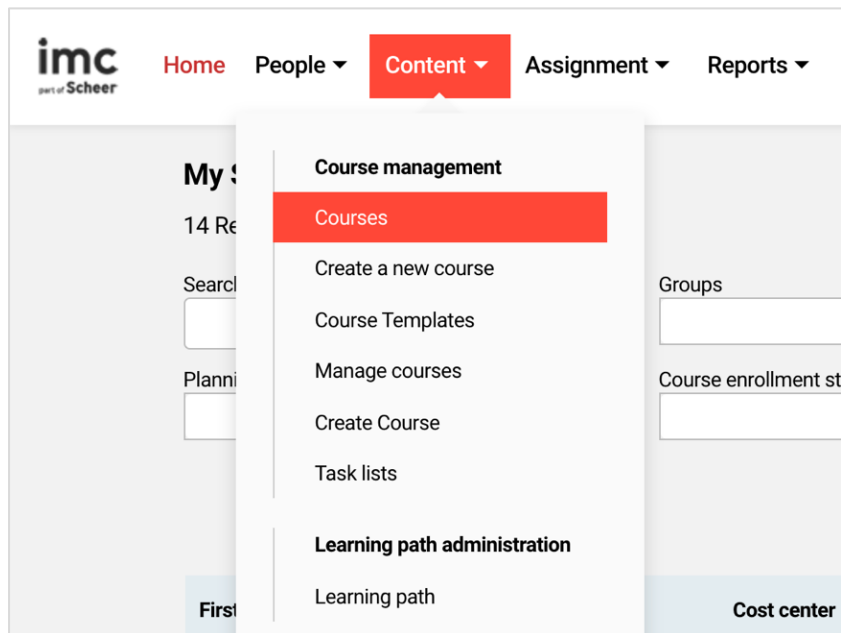

1.4.5 Drop-down on main navigation variations

The following images show variants of the drop-downs:

Default

Customised

1.5 General Status Colour

- Several colours are used to display the state of the elements:
- green colour - used as completed element colour, progress colour, and success status
- red colour - used as error message colour, failed status
- yellow colour - used for “retry” button, in progress status
- grey colour - no status

1.6 General Background Colours

The following background colours can be defined:

- Body background
- Navigation background
- Header background
- Footer background

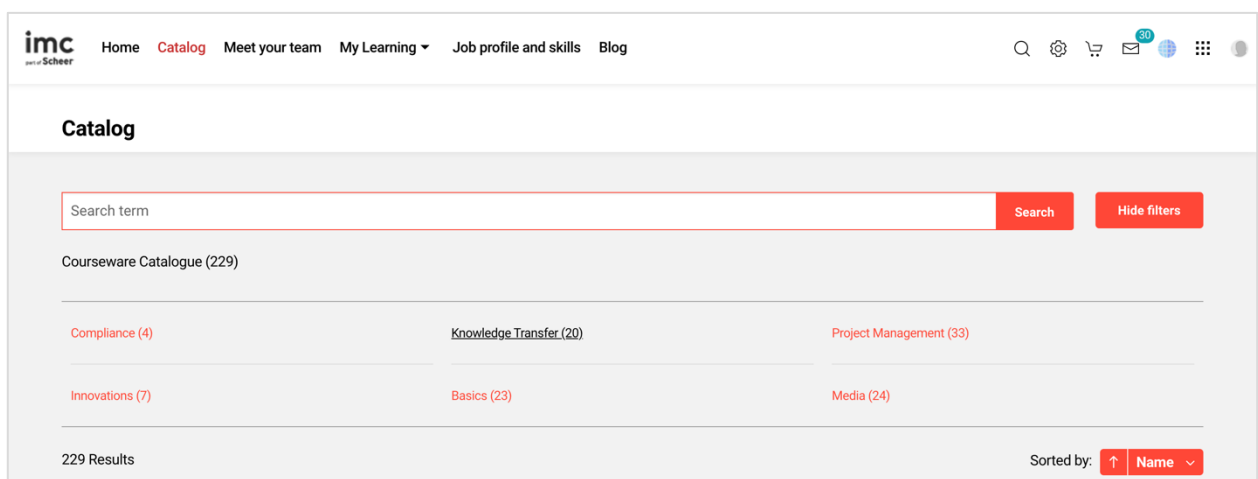

1.7 Links

General links

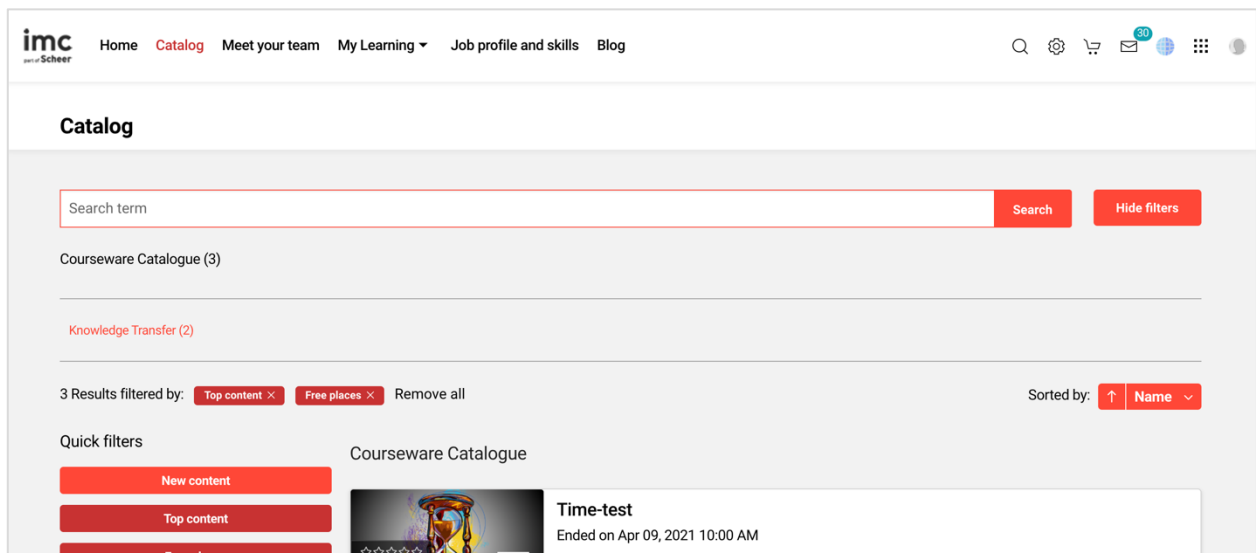

- text colour (normal & hover)
- text decoration (normal & hover)

1.8 Buttons

There are general buttons and buttons which will toggle a functionality and thus change their state. The following styles can be adapted:

- **General button**
 - background colour (normal, hover, selected & disabled)
 - text colour (normal, hover, selected & disabled)
 - border colour (normal, hover, selected & disabled)
- **Toggle button** - colour (toggled and untoggled)

1.9 Content Tiles

Besides the status colours mentioned above the following styles can be changed for tiles:

- tile background colour
- tile border colour
- tile border radius
- tile shadow

1.10 Course Description Page

The description page consists of different sections where the following styles can be adapted:

- **sidebar cards**
 - card background colour
 - card shadow
 - card border
 - card border radius

– metadata entries

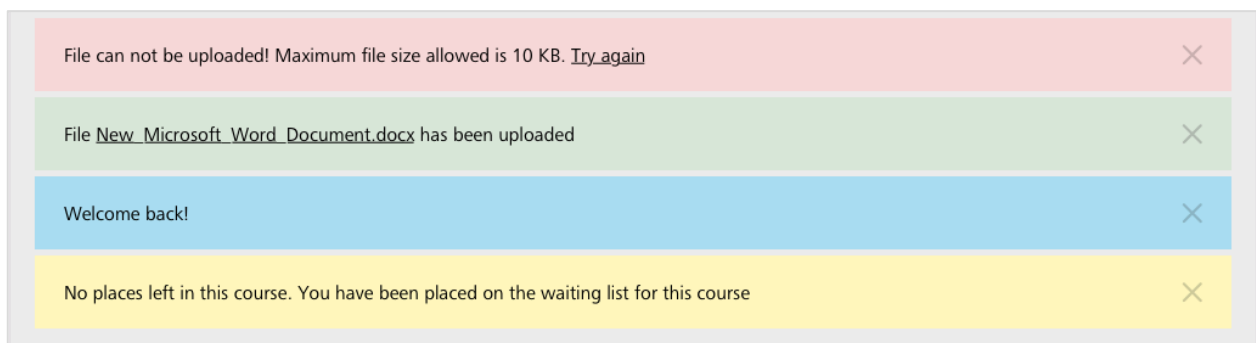

- text colour
- font size
- font weight

The screenshot shows the user interface for the course 'Leading Teams Successfully'. At the top, there is a navigation bar with the IMC logo and links for Home, Catalog, Meet your team, My Learning, Job profile and skills, and Blog. A search icon, settings, shopping cart, and notification bell are also present. Below the navigation, the course title 'Leading Teams Successfully' is displayed with a progress bar at 33%. A description of the course follows, detailing its focus on team building and performance. A 'Skills' section lists 'Ability to solve problems', 'Project Management', 'Stress management', and 'Human Resource', each with a progress indicator. A 'Perform risk analysis' section shows a progress bar and a rating system with 0 reviews. On the right side, there is a 'Learn and Lead' image, an 'Enroll staff members' button, and a box containing course details: 'Duration of use: 3 Months' and 'Methodology: Online course'. The footer contains links for Imprint, Extern Link, Info, and Data privacy.

1.11 Notifications

Notifications are available on different levels. For each level an own colour can be defined:

- **Warning** notification - background
- **Information** notification - background
- **Success** feedback notification - background
- **Error** notification - background

1.12 Loading Icon

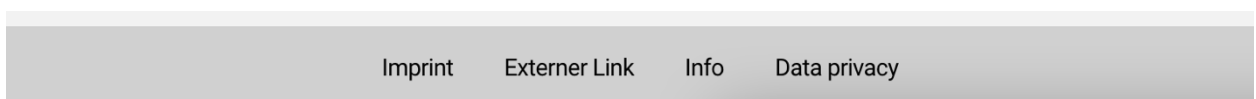

The loading icon appears on each page where additional content is loaded. The default colour is the theme primary colour.

1.13 Footer

The footer at the end of the page has its own styles which can be defined:

- background colour
- text colour (normal & hover)
- text decoration
- text alignment (left, center or right)

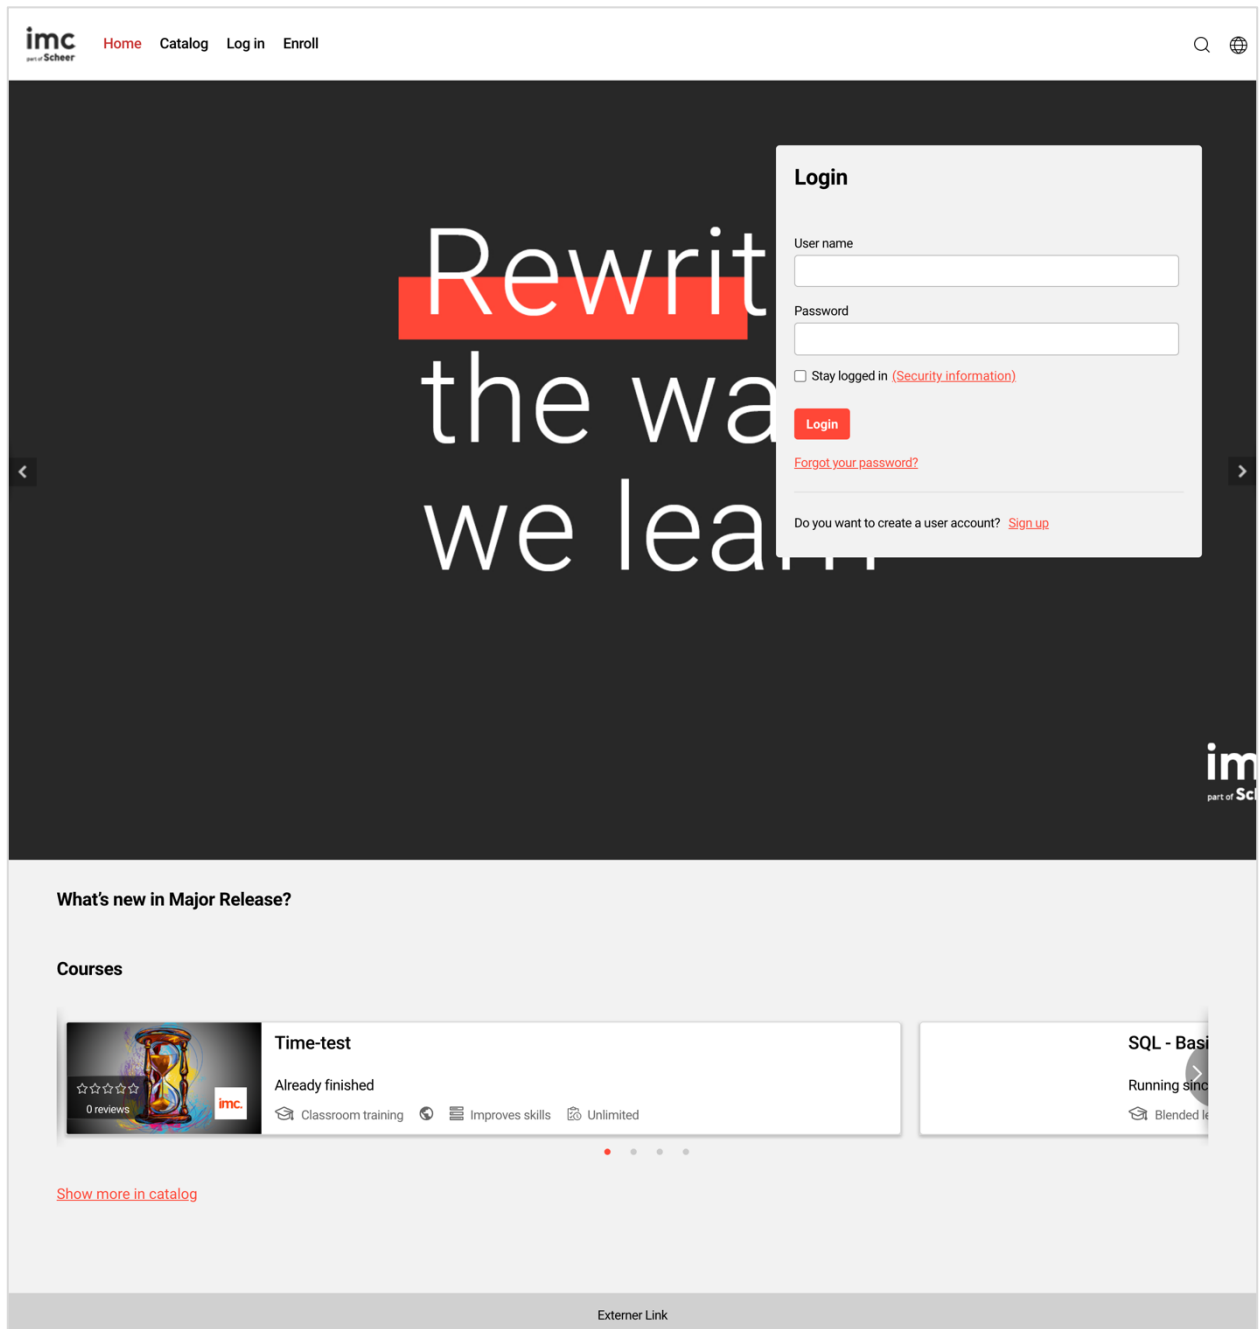

1.14 Favicon

The favicon will appear on the browser tab or frame. This favicon can be the customer logo (small) and the size is 16x16 px.

2 Standard Mock-ups

The following images show standard situations of the system.

2.1 External Dashboard

In this course, you will learn how to build your team, improve teamwork and collaboration, and sustain team performance through continuous learning and improvement. Specifically, you will learn best practices for composing a team and aligning individual and team goals. You will also learn how to establish roles, build structures, and manage decision making so that your team excels. This course will also help you manage critical team processes such as conflict resolution and building trust that have a profound impact on your team's performance. You will discuss some of the best ways to harness the productive potential of teams while mitigating the risks and traps of teamwork.

2.7 On-the-Job Training – Mentor View

The screenshot displays the 'Mentored training' section of the IMC interface. At the top, there is a navigation bar with 'Home', 'Catalog', 'Management', 'Courses', and 'Mentoring'. A search bar and utility icons are on the right. Below the navigation, the page title 'Mentored training' is followed by a search filter 'What are you searching for?' and dropdown menus for 'Status: Current' and 'Course: Filter by course'. A checkbox for 'Non-assessed learner activity' is also present. The main content area shows '9 Training modules' sorted by 'Oldest activity not reviewed'. Each module card includes a title, end date, course name, user profile, progress bar, and a status indicator (e.g., '6 outstanding').

Module Title	Ends on	Course	User	Progress	Status
Your First Days!	Mar 16, 2022	Project Management Professional onlin...	User All	14%	6 outstanding
